

Aspen Technology Platform Support

August 2017

Aspen Technology is committed to providing timely releases of high-quality software products on current computing platforms that are well-suited for our products. We monitor industry trends and customer needs in order to select the most effective computing platforms to certify and support, periodically eliminating support for aging platforms and adding support for new platforms. This document provides a high-level summary of our current platform support strategy and near-term plans.

Aspen Technology General Platform Support Strategy

We focus on support of the Windows operating system, running on x64 processors from Intel. These are the dominant platforms for our products.

Currently, Aspen Technology's Microsoft support plan anticipates supporting the elements Windows Desktop & Server, Office, and SQL Server through the extended Microsoft support end date. Part of this plan assumes potential exceptions to occur, one example is if performance issues are identified. For example, when Microsoft drops support for Windows 7 in January 2020, AspenTech will drop support as well.

Aspen Technology V10 Supported Platforms

V10 is the latest Aspen Technology release. The specific operating system and SQL versions supported by each Aspen Technology product can be found on the corresponding product documentation.

Aspen Technology V10 includes support for the following:

- Windows 10 (64-bit Professional and Enterprise editions)
- Windows 7 (64-bit Professional and Enterprise editions)
- Windows 8.1 Update 1 (64-bit Professional and Enterprise editions)
- Windows Server 2016 (64-bit Standard Edition)
- Windows Server 2012 R2 (64-bit Standard Edition)
- Windows Server 2008 R2 (64-bit Standard & DataCenter Editions)
- Microsoft SQL Server 2016 SP1 (Standard, Enterprise & Express Editions)
- Microsoft SQL Server 2014 SP2 (Standard, Enterprise & Express Editions)
- Microsoft SQL Server 2012 SP3 (Standard, Enterprise & Express Editions)
- Microsoft SQL Server 2008 R2 SP3 (Standard, Enterprise & Express Editions)

Platforms to be Dropped

The tables below summarize the platform support roadmap for our products. Please review the tables for all platform changes and begin migrating away from these platforms to prepare for migration to future releases.
